Authenible

SERVICES

Your technology team, without the full-time hire.

We design, build and run web and mobile apps for associations and non-profits, with AI that works beside your people and senior technical leadership when you need it.

WHAT WE DO

Web & mobile apps

Native iOS and Android apps (Swift/SwiftUI, Kotlin/Jetpack Compose) and web apps, from first version to App Store releases and ongoing support.

AI integration

AI chat, personalized content and smart automation built into your app, with guardrails, fallbacks and secure handling of member data.

Fractional CTO

Senior technical leadership on your schedule: roadmap, architecture, vendor and AI choices, security policy, and plain-language updates for your leadership.

TECHNOLOGY PARTNER RETAINER

One retainer. A whole team.

Instead of hiring one developer and hoping they can do everything, put a team on retainer that builds, integrates AI and leads, and scales up for launches and busy seasons.

Pricing is tailored to your scope.
Contact us for pricing: authenible.com/contact

- Senior mobile, web and AI engineering
- Fractional CTO time and a monthly roadmap
- Monitoring, releases and security handled
- No recruiting, benefits or turnover risk

HOW WE WORK

Three steps, at your pace.

1

Map your workflow

We sit with your team and write down how work really moves today, from first contact to follow-up.

2

Automate the routine

We set up tools for the repeated work: scheduling, reminders, payments, and records.

3

Add AI where it helps

We add AI where it saves real time, such as drafting, sorting, and summarizing. People keep the conversations that build trust.

OUR VIEW

The best experiences are person to person.

Handing everything to AI can look smart at first. But the best businesses give a great experience through people, with compassion and empathy at the heart of every transaction. AI doesn't replace your workers. It works with them, so each person can do more and do it better.

When people talk about AI, they usually talk about speed. But the best experiences are enjoyed over time. We work with your business to find the right level of AI, and the right pace, so it improves what you offer and gives you back the time to plan your next great offering.

- **Staff who do more.**
  AI takes the repeated work, so your people spend their time with customers.
- **A pace that fits.**
  We find the right level of AI and the right speed for your business, not the fastest one.
- **Time back.**
  Hours saved go to planning your next great offering.

WHO WE SERVE

Associations | **Leagues & clubs** | **Non-profits**

GET STARTED

Let's map your business together.

Tell us how your business runs today. We'll show you where automation and AI can help, and where your people should stay in front.
